## Your IT-rental Partner.

Throughout the years, we've helped thousands of customers setting up their events, call centres, exams, elections and more. Our decades of experience in providing temporary IT-solutions made us leading experts in IT-rental. We are what we are today by providing flexible and complete end-to-end solutions. Our service is more than just the rental of high-quality IT-hardware, it's also to provide our clients accessible and carefree rental experiences.

## IT-rental and the circular economy.

Did you know that hiring IT-hardware is a great way to enhance corporate sustainability? Flex IT prides itself in being a leader in Circular IT and our Rent division is a perfect example of utilizing IT-hardware to increase sustainability within an organization. After each rental period, we collect and thoroughly wipe and clean all hardware before finding it a new home. This maximizes the life-expectancy of IT hardware and prevents it from becoming e-waste. When hardware becomes obsolete, we dispose it in an ecologically responsible manner throughout our ITAD division.
